

Audentia

**Audentia** - Latin word for boldness and courage, not to be confused with risk taking and profligacy!

**Boldness and courage** are often required in difficult times in order to maximise returns in a risk assessed environment. Our goal and primary aim is to work with you to protect those assets, whether you are a private individual or an Institutional investor.

We would like to assure you and clarify WHAT WE ARE NOT:

We are not **Investment Managers or Investment Advisors** - *although we have the skill sets to be either . . .*

**Bankers** - *although we have cemented relationships with discreet and conservative private banking partners . . .*

**Brokers** - *we do not take commission for referrals . . .*

**Proprietary traders** - *we do not wish to incur a conflict of interest that would threaten your goals . . .*

Or **Salesmen** - *we have no proprietary product, only our international expertise.*

For further information **on what we are and how we can assist**. Please use the contact numbers below.

You can be assured that your enquiry will be dealt with in a discreet and confidential manner in a protected environment.

All of our initial meetings take place in person at a mutually convenient time and location.

We look forward to the opportunity to assist you.
